LaRonda - could you add this for the afternoon hearing?

In the second panel, Acting AA Stoner was asked by Rep. Kelly (R, PA-3) about EPA's May 11 announcement regarding Dimock water testing and the statement that EPA did not have reason to take further action in Dimock based on the released data. When asked if EPA had determined that the water is safe and if EPA was ready to cease activity in Dimock, AA Stoner replied that to her knowledge, there is some limited follow-up sampling occurring and that nothing so far required further action.
